Response to Notice to File Missing Parts of Nonprovisional Application

Honorable Assistant Commissioner for Patents
Box: Missing Parts
Washington, D.C. 20231

Sir:

In response to the Notice to File Missing Parts of Nonprovisional Application having a mailing date of April 18, 2002, please consider the following remarks.

Remarks

The Notice to File Missing Parts of Nonprovisional Application has required the submission of a signed oath or declaration. In response, Applicants submit, concurrently herewith, a declaration prepared in compliance with the rule and duly executed and dated by the inventors.

The Notice to File Missing Parts of Nonprovisional Application has also required submission of "a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing ... Applicant must provide such a statement."

In response, Applicants respectfully submit that they have not submitted a computer readable or paper copy of a sequence listing. Applicants also respectfully submit that they cannot find any nucleotide or any amino acid sequences in the captioned application, and are unsure what the Notice is referring to in this instance. Because of this, Applicants are at a loss as to how to respond. Applicants respectfully submit that this requirement may have been made in error, and since no sequences are present in the captioned application, no Sequence Listing with the requested statement is required. In the event that Applicants are in error, Applicants respectfully request that the sequences be identified by page and line or paragraph number, so that an appropriate listing and corresponding statements may be prepared.

In view of the foregoing, Applicants respectfully submit that they have fully and appropriately responded to the Notice to File Missing Parts of Nonprovisional Application and respectfully request that the application be entered and sent to the Examining branch.

Respectfully submitted,
